Association Française  
des Parents d'Elèves  
du Lycée Français du Caire

**Profession of faith for elections  
parents' representatives  
to the School Council and the Governing Board  
of the French Lycée in Cairo**

Dear Sir / Madam,

As at each school year, you are invited to participate in the elections of representatives of parents of students in the "Conseil d'école" (if you are a parent of a student in primary school) and to the "Conseil d'établissement" (for all parents of students of LFC).

We strongly encourage you to use your right as a parent by voting because it is a way to express your interest in the life of the institution and to support parents who invest in associations and introduce themselves in elections.

***This year, as last year, a common list!***

For several years now, the parents of the Lycée Français du Caire have been represented by 2 parent associations, AFPEC (French Association of Parents of French Secondary School Students in Cairo) and ARFE ((Association Réunissant les Familles d'Elèves)).

Each of the associations worked on getting involved in different projects. But it is clear that most of the time we work together and on the same issues and recently with the same points of view: quality of education, security, events or sports and cultural events, solidarity fund, book scholarships, Yearbook and class photos.

We sit together in the second-level "Conseil de Classe", in official educational councils, such as the "Conseil d'école" and the "Conseil d'établissement", in certain committees, such as the Commission consulaire des bourses and the Transport Commission.

Since September 2017, the two associations have assumed the total responsibility for public school transportation to ensure quality control of the service.

We are all parent volunteers, engaged in the life of the school. We put our skills, our know-how and our time at the service of families and the school. Our associations have a role of interlocutor and spokesperson with the authorities of the establishment.

This year, as last year, we decided to form a common list to better focus our efforts, for the sake of efficiency and "profitability".

Our challenge is to bring together all the families of the Lycée around the same values and the same projects to avoid any logic of competition or risk of division.

Our aim is to strengthen the school-parent partnership in a climate of trust and shared responsibilities because we work alongside the administration for the success of each child's academic success, his or her development and the building of a future citizen.

Your participation and support are essential for the success of our interventions and efforts.

***Vote for our common list ... we need you!***
